

Analysis of Flights to Riyadh Tickets Prices During Riyadh Season 2021

The focus of the data analysis is to get expected or predicted cheap and affordable flight tickets going to Riyadh during the Riyadh Season from cities within Saudi Arabia.

Due to our client needs, data is collected from the famous Flights Search Engine “Google Flights” using Web Scrapping methods. After performing EDA and some Feature Engineering the linear regression model is going to focus on highly correlated features with its target variable as shown on the Heatmap above.
